MONDAY EVENING, OCTOBER 31.

TILTON VS. FULTON. - The plaintiff complains of the defendant that, being a preacher, he did on a certain Sunday evening named drink, in other words "guzzle," several glasses of lager beer in a saloon on the Bowery in New York city, with the aggravation of having just then preached a sermon for Dr. Armitage. Defence -"You're another?" to wit, that the plaintiff, being then an apostle of temperance, did, at Delmonico's at dinner drink sundry glasses of wine. Issues: 1st-Did he or did he not? 24 -Did he or did'nt he? Law points: 1st-If he did, what then? 2d-If he did'nt, what of it? The case is to be tried at the next term, when the defendant shall plead in a cross action for slander, the nominal plaintiff becoming denfendant. In the meantime the sinners await the trial with profound interest .- Georgetown

Scene at a Tournament .- A correspondent of the Fredericksburg Star giving an account of a tournament in Stafford. (which by the by was a fine one) says :-- "Although I manifested such an interest in the occasion, yet, I was very agreeably amused several times during the day. The Knights seemed to be a little excited as they were finishing the last round; one little fellow, perched in a rather conspicuous position, bawled cut, "why they rides more worser this time than the fust time they rided.'

oct 10-to THE STEWART PARLOR BASE-BURN-ING STOVE.

The increasing demand for a first class and

reliable base-burning and self feeding stove which has been pressing upon all stove dealers so much of late, has induced the inventor and manufacturers of the celebrated STEWART STOVES to turn their attention in that direction, and the result is the production of a stove which for beauty of design, economy in the use of fuel, capacity for heating, and completeness in all its operations, is unsurpassed by any stove now in the market.

Amount the advantages claimed are:

Economy in the use of Fuel—This stove being

designed to overcome the great objection which has been raised against most of the self feeders now in use, namely, the inordinate consumption of fuel. The Stewart Parlor Base-Burner being provided with a brick lined fire pot and complete gas burning arrangements, generates a steady and powerful heat, which by the use of the draft damper is under perfect control, so that the heat may be radiated to suit the temperature of the room and a moderate or strong degree of heat thrown out as the will or pleas ure of the operator may desire, thereby securing a saving of at least one third of the amount of iuel consumed in stoves which cannot be

thus controlled.

Cheerfulness—This stove is provided with mice doors arranged just above the fire box, and encircling almost the entire body of the stove. These doors are nicely hinged so that they can be opened at any time and the mica cleaned with the utmost facility, and when the tion is produced, thereby securing a cheerful-ness and comfort equal to that of an open grate

(leanliness - Being provided with a Patent from the escape of cinders or a hes into the selection of them. room while shaking or dumping the grate.

Size of Coal - While in other base burners it

grate that the larger sizes of coal, ordinarily burned in parlor stoves, may be use t with the best results. This is an important advantage, as the larger sized coal is purer and produces a greater heat, and prevents the waste arising from so much fine fuel falling throughthe grate. This stove is offered to the public with the full belief that it contains better heating and economizing features than any other base burn-er now in use. Persons desiring a new stove are requested to give it a thorough examination and satisfy themselves that it is the best. I refer to the following persons who have the Stewart Parlor Base Burner in use: D. Thomas Loockerman, Mrs. Thomas Buins, T. D. Fendall, esq., Burke & Herbert, City Post Office and others of our city-all of whom unite in recom-

mending it. I keep also on hand a full assortment of WOOD and COAL STOVES The celebrated STEWART COOKING STOVE, with latest improvements, of the different sizes, turnished. All kinds of Repairing, Rooting and Plambing work executed in the best manner and with

Dr. M. Bernhardt, Oculist and Optician:
My Dear Sir: I beg to express to you the
doep sense of obligation I feel for the professional kindness extended to me, by which, with eye sight impaired by years of application and study, I am enabled to write this note with the clearness of vision which I enjoyed in the days of my youth. May your honorable and useful life long be spared, that humanity may enjoy the scientific skill of one so eminently qualified in mind and heart to do good to his fellowmen. With grateful acknowledgments, permit me to subscribe myself,

Your obedient servant and friend, Gov. JNO. GILL SHORTER.

State of South Carolina, ) Executive Dept.. Columbia, June 19, 1867. Sir: I have made full and satisfactory test of the Spectacles procured from you, and I have

the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facilities with which you fitted the glass to my eye furnished me conclusive evidence of your thorough experience as an Oculist. Your attainments in your profession entitle you to the confidence, patronage and gratitude

of the public. I have the honor to be very respectfully yours, JAMES L. ORR, yours, Governor of South Carolina.

Portsmouth, Va., Dec 1, 1865. Prof. Bernhardt :- I owe you a debt of gratitude for the benefit you have rendered me. For many years I have been accustomed to use glasses when reading or writing, and always with pain, more or less, to my eyes. You have relieved me from all inconvenience. I can now read and write for all hours without any pain and can see objects distant and near through the same glasses with clearness and distinctness that I have not experienced since my youth.

I am gratefully yours. Joseph H. Plunkett, Pastor of St. Paul's.
